

I am writing to give my input of how K-LOVE serves me and my community. I listen to K-Love at least 40 hours a week. It helps me keep a positive perspective on life. It is especially important during the hard economic times experienced in our state and community. The area that K-Love serves is the second largest population concentration in the State of Oregon. If we lost the station it would deprive the community of a much needed positive and encouraging place to visit anytime twenty-four hours a day. The station consistently provides uplifting and unstressful messages and music that allows a person to complete daily tasks. Our community lives a rushed and harried lifestyle and I sincerely believe that the service provided by K-LOVE helps to calm individuals listening to it which is good for the public interest.
